

MagicQ Rack Mount

MagicQ Rack Mount

- 18 Universes
- MagicQ Linux Console Operating System
- 1u 19inch Rack Mount Case

The MagicQ Rack Mount provides a MagicQ console in a 19inch rack mount rack solution for lighting and media installations. MagicQ Rack Mount runs the Linux operating system just like the full MagicQ consoles. MagicQ Rack Mount supports all the MagicQ software features including the familiar and flexible GUI lighting control, media server connectivity options and in-built Pixel Mapping media server for LED grid arrays. MagicQ Rack Mount utilises the same software and show formats as the MagicQ Pro consoles enabling compatibility between all products in the entire MagicQ range.

MagicQ Rack Mount supports eighteen universes. All eighteen universes can be output on the network via ArtNet, ACN or Pathport.

MagicQ Rack Mount supports monitor, keyboard and mouse outputs. Programming of MagicQ shows can be programmed directly using the mouse and keyboard, or by connecting a MagicQ Wing via USB.

MagicQ supports ArtNet, Pathport and ACN Streaming DMX protocols. MagicQ software supports scheduled events, timecoding, zoning and remote control which makes MagicQ Rack Mount an immensely powerful control console in a compact size. MagicQ Rack Mount is the console of choice for controlling lighting, video and LED installations.
